This committee is involved in strategic issues relevant to the Environmental Management clean-up program at SRS. This includes performance assessments as well long-term policy, planning and cross-cutting issues related to other CAB committees. Specific areas of interest are development and deployment of technology, the DOE-SRS budget decision-making process, future land use and relevant national environmental policy. The Committee encourages other CAB committees to integrate long-term stewardship into issue deliberations and CAB recommendations. Topics under consideration for the Strategic and Legacy Management (S&LM) Committee in 2012 include:

- . Planning & Execution Updates
 - . Integrated Lifecycle Plan for Cleanup Program
 - . Performance Metrics FY2013 Targets
 - . Enterprise SRS Status
 - . Fukushima Initiative Update
- . Budget Request and Congressional Funding
 - . Appropriations Status
 - . CAB participation with FY2015 Integrated Priority List
- . Update on SRS Natural Resources Management
- . Military Training Exercises at SRS
- . Repurpose and Reuse of SRS Assets
- . Historic Preservation
